Arch

Product code: BM-1801

Design: Pawlak & Stawarski

The chair and armchair from the Arch collection refer to the classic forms of armchairs and chairs, but thanks to simplified details it acquires a very modern character. Expressive base undercuts, inspired by arcades, refer to classic architecture. The base of each seat is completely digitally milled, which allows obtaining unobvious, subtle and impossible to achieve with the traditional wood processing method. The backrest exposes the clear surface of natural wood, and the use of plywood with variable thickness gives the body subtlety.
