

wardrobe

## Tivoli

Product code: Wardrobe 3D

Wardrobes from the Tivoli collection are a good example of how beauty and usefulness can be combined in a creative way. External lighting in thick sides of wardrobes gives a warm and intimate climate to the bedroom while sequential internal lighting of wardrobes, thanks to utilisation of a motion detector, adds a spark of magic. Practical and well-thought-out division of internal wardrobe surface allows to keep impeccable tidiness thanks to spacious shelves with various width and also deep drawers.

SOLID OAK WOOD ELEMENTS, LIGHTING: EXTERNAL IN THICK SIDES, INTERNAL DIVIDED INTO SECTIONS I.E. EACH SECTION TURNS ON SEPARATELY AND AUTOMATICALLY - MOTION DETECTOR, SOFT CLOSE
